

IMEA CLIPFIX

UNIVERSAL GRATING LOCKING MECHANISM
FOR MEA CHANNEL COVERS

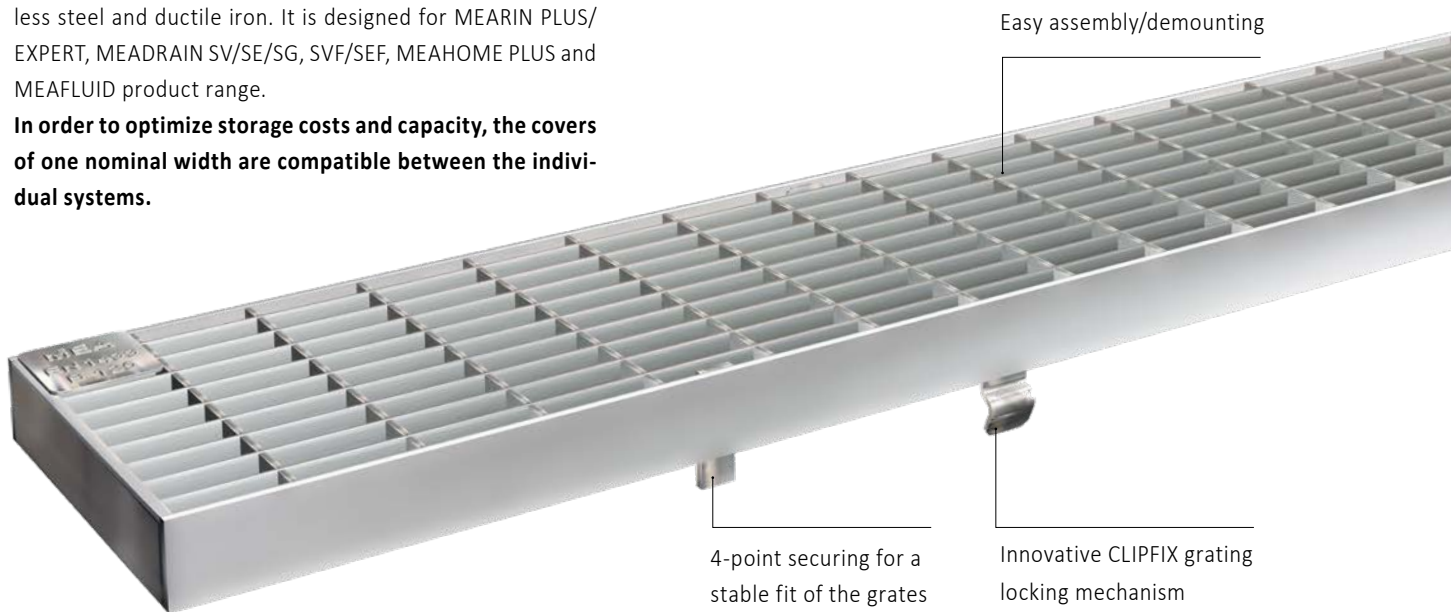

**GRATING LOCKING MECHANISM FOR MEARIN PLUS/EXPERT,
MEADRAIN SV/SE/SG, SVF/SEF, MEAHOME PLUS AND MEAFLUID**

SIMPLIFIED STOCK-KEEPING, COMPREHENSIBLE ASSORTMENT AND LARGE CHOICE OF GRATINGS

IMEA CLIPFIX CHANNEL COVER SECUREMENT

The innovative CLIPFIX grating locking mechanism can be fitted on gratings made of plastic, galvanised steel, stainless steel and ductile iron. It is designed for MEARIN PLUS/EXPERT, MEADRAIN SV/SE/SG, SVF/SEF, MEAHOME PLUS and MEAFLUID product range.

In order to optimize storage costs and capacity, the covers of one nominal width are compatible between the individual systems.

The new CLIPFIX grating locking mechanism is made of galvanised steel or stainless steel, snaps into the chambers of the drainage channel body and locks reliably.

For installation, simply insert the grating into the drainage channel body and lock it in place; to remove it, lift the grating with the help of a grate hook.

PRODUCT ADVANTAGES

- > Screwless and tool-free fastening system for MEA channel covers
- > Grating locking mechanism for loading classes A 15 up to E 600
- > From class B 125, additionally equipped with an integrated longitudinal shift protection
- > Maximum safety regardless of loading class
- > Reliable locking, vandalism and theft are prevented
- > Easy cleaning of the drainage channel body (when removing the grating, the cross-section of the channel is completely free)
- > Made of durable galvanised or stainless steel

IMEA CLIPFIX ANTI-THEFT PROTECTION

- > With the newly developed screwable MEA CLIPFIX anti-theft protection, your gratings are safely protected against theft and vandalism.
- > The anti-theft protection is available in nominal widths 100, 150 and 200 and is easy to install.
